PROFESSIONAL EXPERIENCE

Atomicdust

Senior Web Developer

Nov 2018 - Present

Lead developer for an award-winning marketing and branding agency. Overseeing all development efforts, both internally and with contract partners. Managing over 100 hosted WordPress websites including monthly support for 30+ sites. Building fully custom themes, several of which have been recognized by Communication Arts, Awwwards, AIGA, and more.

Brevity

Web Designer & Developer

May 2016 - Jul 2018

Core member of a small, collaborative team creating digital marketing experiences with a focus on building feature-rich, responsive websites. Developed 15+ custom sites on WordPress, all of which measurably improved performance and conversion while adhering to a detailed creative brief. Streamlined and documented our development process. Key collaborator on award-winning branding and site development recognized by AIGA, Awwwards, CSS Design Awards, and more.

Freelance

Web Designer & Developer

Jan 2016 - Oct 2016

Contract or consulting opportunities that varied in scope. Handled all aspects of client communication and project management. One project included the creation of strategy, branding, content, social media, and a website for a small local business. Resulted in a 22% increase in leads, partially due to new contact form submissions.

Draw It To Know It

Front-End Developer

Jan 2015 - Nov 2015

Website redesign and branding refresh for an educational software startup in the medical sector. The new site accommodated over 10 new product initiatives and included several key enhancements to the learning tools, user controls, and site architecture that led to a more elegant and intuitive user experience.
